One question, two pages, a joint evidence requirement

Constructed example: every route must preserve the same evidence.

Question: What is the year-on-year change in operating margin after applying the restatement in the footnote?

Operating performance

USD million; margin in %

A

	2024	2023
Revenue	1,000	800
Operating profit	150	96
Operating margin	15.0%	12.0%

As originally reported

Notes to the accounts

Note 7. Comparative figures

B

The 2023 operating profit is **restated from 96 to 104.** Revenue remains 800.

The 2024 figures are unchanged.

OCR + layout

Text + cell coordinates

Keep row, year and unit.

Recover A and B together.

Shared evidence: A + B

Direct visual

Page images / crops

Keep fine print readable.

Supply both relevant pages.

Shared evidence: A + B

Hybrid retrieval

Text + visual evidence

Link table and footnote.

Retrieve both A and B.

Shared evidence: A + B

Apply the restatement, then compute the change

2023: 104 / 800 = 13.0% 2024: 150 / 1,000 = 15.0%

Answer: +2.0 percentage points, supported by A + B.

Using 12.0% gives +3.0 points: valid arithmetic on unadjusted evidence.
